Message from the President

Mücahit ARMAN
ITS Türkiye President

Dear colleagues and partners,

Intelligent systems and sustainable infrastructure are laying the foundations for more liveable, secure and resilient communities. By combining technology, data and collaboration, we can prepare our cities for tomorrow's needs as well as today's.

SUMMITS, the International ITS Summit and the flagship event of the Intelligent Transportation Systems Association of Türkiye (ITS Türkiye), brings together government, business, academia, civil society and international partners to share knowledge, develop innovative solutions and build lasting partnerships.

As we prepare for the fifth edition, we are launching a strategic partnership with Marmara Fuarcılık, which brings 30 years of exhibition industry experience. Together, we aim to expand SUMMITS internationally over the next five years and establish Türkiye and our region as a leading meeting place for intelligent transportation systems, smart cities and related technologies.

Our vision is to bring industry representatives, technology providers, investors, public authorities, city leaders, academics and entrepreneurs from around the world together in Türkiye, establishing our country as a regional hub.

Under the theme "**ITS for a Better life**", we will explore the technologies, sustainable approaches and successful projects shaping the future of transport and cities. Your participation will strengthen our shared vision and help us move towards safer, greener, more integrated and more resilient cities. Join us to shape the cities and transport systems of the future, while addressing the needs of today.

Together, for a better life.

Yours sincerely,

Mücahit ARMAN
ITS Türkiye President

Safe I Secure I Green I Integrated I Resilient

About SUMMITS

The Future of Smart Cities and Intelligent Transportation comes together in Ankara.

Launched in 2019, SUMMITS, the International Intelligent Transportation Systems Summit, has continued to grow in scope and reach. For its next edition, a partnership with Marmara Fuarcılık and its 30 years of experience will bring a broader programme, fresh energy and a clear vision for the future. The summit will take place on **13–15 April 2027** at the **Tunçalp Özgen Congress and Cultural Centre on Hacettepe University's Beytepe Campus** in the capital city, Ankara.

SUMMITS brings together public bodies from Türkiye and overseas, businesses, academics and civil society organisations. It is a meeting place for sharing knowledge, transferring technology, building partnerships across sectors and developing the next generation of transport solutions. Building on its track record, the summit continues to broaden its scope and international reach.

Intelligent transportation systems are part of a wider ecosystem spanning smart cities, mobility, artificial intelligence, data, telecommunications, energy, sustainability, infrastructure, security, software and digital technologies. SUMMITS 2027 will bring these connected sectors together to create a broader and more integrated platform for those shaping the cities of the future.

Through our strategic partnership with Marmara Fuarcılık, we aim to grow SUMMITS internationally and welcome **industry representatives, technology providers, investors, public authorities, city leaders, academics and entrepreneurs** from around the world. Our goal is to position Türkiye as a regional hub for intelligent transport systems and smart cities.

AN INTERNATIONAL MEETING PLACE
Meet leading experts, decision-makers and industry representatives from around the world.

CONNECTING INDUSTRIES
A shared platform for the sectors that work alongside intelligent transport systems.

SHARING KNOWLEDGE AND EXPERIENCE
Explore current technologies, proven applications, emerging trends and future solutions.

PARTNERSHIPS AND NEW OPPORTUNITIES
B2B meetings, investment opportunities and strategic partnerships.

TECHNOLOGY AND INNOVATION
Discover solutions for intelligent transport, smart cities and the infrastructure of the future.

5.000+ VISITORS

50+ SPEAKERS

100+ EXHIBITING COMPANIES

Why attend SUMMITS'27

More liveable cities.
A stronger Türkiye.

A FLAGSHIP INDUSTRY EVENT

SUMMITS is Türkiye's leading event for intelligent transportation. An expanded focus on smart cities will bring an even broader programme.

AN INTERNATIONAL OUTLOOK

SUMMITS has an international vision, with a wider global reach planned for 2027.

THE WHOLE ECOSYSTEM IN ONE PLACE

Meet representatives from government, business, academia, local authorities, investment, civil society and the technology community.

NEW TECHNOLOGIES AND SOLUTIONS

Discover the latest technologies, innovative solutions and successful applications in smart cities and intelligent transportation.

A GLOBAL INDUSTRY MEETING PLACE

SUMMITS aims to bring the world's leading experts, organisations and cities together in Türkiye.

SUPPORTING GROWTH IN TÜRKİYE

Investment in smart cities and transportation can improve efficiency, create jobs and add value, helping Türkiye become a leading centre in these fields.

EXPORTS AND GLOBAL MARKETS

The event aims to help Turkish companies take their locally developed products and solutions into international markets and grow exports.

NEW PARTNERSHIPS & OPPORTUNITIES

B2B meetings, networking and strategic partnerships open up new markets and investment opportunities.

SUMMITS'27
Programme and Event Highlights

A rich program where knowledge, technology, collaboration & experience come together on a single platform

Opening Ceremony and Official Guests
The official opening will welcome leading industry figures and senior officials.

ITS Arena
A dedicated presentation area where innovative projects and practical applications meet the industry.

Start-up Area
A platform connecting innovative ideas and start-ups with investors and industry professionals.

Exhibition Stands
Discover innovative products and solutions across intelligent transport, smart cities, mobility, infrastructure and related industries.

ITS Türkiye General Assembly
An important forum for ITS Türkiye members and industry stakeholders to review progress and make decisions.

Path of the Mind Awards in Transportation
Celebrating successful projects and showcasing award-winning work.

Panel Discussions and Presentations
Experts from Türkiye and overseas will discuss current issues, emerging trends and the future of the industry.

B2B Meeting Lounge
A dedicated space for business meetings, new contacts, investment discussions and strategic partnerships.

Welcome Dinner and Gala Dinner
Dedicated networking occasions bringing together exhibitors, speakers and industry representatives.

Exhibitor Presentations
Dedicated sessions for companies to present their products, technologies, solutions and projects.

VIP Lounge
A networking and meeting space for senior officials, executives, speakers and invited guests.

Technical Visits and Sightseeing Tours
See successful transport and infrastructure projects first-hand and discover Ankara's cultural attractions.

Exhibitors' Profile & Product Categories

SMART CITIES

- Smart City Infrastructure Solutions
- Energy and Sustainability Solutions
- Security and Monitoring Systems
- Telecommunications & Data Communications
- Artificial Intelligence & Data Analytics
- Government & Public Sector Representatives
- Smart Building & Facilities Mgmt. Systems
- Smart Lighting Systems
- Urban Planning & Consultancy Services
- Disaster & Emergency Management

INTELLIGENT TRANSPORTATIONS

- Transport Technology Providers
- Transport Technology Providers
- Electric Vehicles & Charging Infrastructure
- Autonomous & Advanced Mobility Solutions
- Intelligent Transportation Systems & Internet Of Things Solutions
- Public Transport Solutions & Transport Networks
- Smart Parking Management & Car Park Solutions
- Sustainable Transport Solutions
- Data Analytics, Cloud & Mobility Platforms
- Road Safety & Traffic Monitoring Solutions
- Logistics & Distribution Solutions
- Mobility as a Service (Maas) Solutions
- Micromobility & Shared Vehicle Platforms
- Traffic Signalling Systems
- Fleet Management & Transport Optimisation
- Smart Parking Systems

INFRASTRUCTURE SYSTEMS

- **Transportation Infrastructure**
  Lighting, Road Construction and Maintenance, Road Markings and Signs, Charging Systems, Bridge Construction, Tunnel Technology, Smart Infrastructure, Smart Energy Grids, Street Furniture.
- **Parking Systems**
  Operating Systems, Management Software, Ticketing and Payment, Parking Equipment, Guidance Systems, Automated Systems, Access Control, Parking Enforcement.
- **Road Safety**
  Roadside Equipment and Accessories, Emergency Systems and Equipment, Traffic Signalling and Control, Detection and Enforcement Systems, Information and Warning Systems, Incident Management.
- **Cyber Security & Data Protection Solutions**
- **Maintenance and Operational Services**

Who you will Meet / Visitors' Profile

GOVERNMENTAL, PUBLIC AND LOCAL AUTHORITIES

- Government Departments & Public Bodies
- Publicly Owned Companies & Subsidiaries
- Local Authorities & Municipal Companies
- Dev. Agencies & Regional Authorities
- Investors & Financial Institutions
- Consultancy & Service Providers
- Logistics & Distribution Companies
- Non-Governmental Organisations
- Educational Institutions & Universities
- Academics & Researchers
- Science & Technology Parks
- Research & Development Centres
- Press & Media
- Students In Relevant Disciplines

PRIVATE INDUSTRY

- Smart City Companies
- Intelligent Transportation Companies
- Technology Infrastructure Providers
- Technology & Software Companies
- Energy & Sustainability Businesses
- Transport & Mobility Companies
- Infrastructure & Construction Companies
- Telecomm. & Communications Companies
- Security & Monitoring System Providers

INTERNATIONAL PARTICIPANTS

- Public Bodies & Local Authorities from OS
- International Companies & Investors
- Global Technology Providers
- International NGOs & Pro. Associations
- Universities & Research Centres from OS
- International Consultancy Firms
- Embassies & Trade Offices
- International Media Representatives
- International Project Developers

THE FUTURE OF INTELLIGENT SYSTEMS

Connected. Sustainable. People-Centred.

Technologies transforming cities transportation and infrastructure for a better life.

SUMMITS 2027 brings these technologies together on one platform.

The summit brings together public sector leaders, local authorities, technology leaders, industry professionals, academics and investors to explore the developments shaping the future of cities and transport from a wide range of perspectives.

From intelligent transportation systems and artificial intelligence to urban infrastructure, energy, mobility and data management, the conference will focus on the technologies, applications and new business models set to transform urban life.

SUMMIT PROGRAMME

3 DAYS. 3 KEY FOCUS AREAS. THE CITIES OF THE FUTURE

13 APRIL 2027 TUESDAY

- **Opening session**
  - Summit Video
  - Address by the Chair of ITS Türkiye
  - Guest Speaker
  - Opening Address by the Minister of Transport & Infrastructure
- **UAY Awards Ceremony**
- **Official Group Photograph**
- **Ribbon-Cutting Ceremony & Official Exhibition Tour**
- **VIP Lunch**
- **VIP Panel Discussion**
- **ITS Türkiye General Assembly**
- **Gala Dinner**

14 APRIL 2027 WEDNESDAY

- **4 Panel Discussions**
  1. Sustainable and Resilient Digital Cities
  2. Intelligent Transport for a Better Life
  3. Urban Digital Twins and Smart City Infrastructure
  4. Big Data Analytics, Artificial Intelligence and Cyber Security
- **ITS Arena Presentations**
- **Technical Visit**

15 APRIL 2027 THURSDAY

- **2 panel discussions**
  - People-centred mobility and autonomous transport ecosystems
  - Sustainable energy and electric vehicle technologies
- **ITS Arena presentations**
- **Two technical visits**
- **Keynote address**
- **Closing session**
